 - **Other Games:** Made "Falling Coin" and "LONG" for different clients.

— SIDE PROJECTS

AAABAO: AI Expense Tracker App Web App

2026

- **Project:** Designed and built "AAABAO", a smart bill-splitting app. Owned the 0-to-1 process from needs to UI/UX and full-stack dev using AI Agents.
- **Core Highlights & Product Features:**
 - **AI-Driven Dev:** Used AI prompts to build the app, working like a full team to write complex code and UI on my own.
 - **Spec Scope Control:** Wrote clear specs to define the MVP before asking AI to code, so the AI hits the goal without waste.
 - **Smart Debt Split:** Solved the pain of messy group trips. Built a "Debt Matrix" that turns complex debts into one simple number to pay.
 - **AI UX:** Added "Voice" and "Receipt Scan" logs using AI to save typing time, with safe checks to prevent AI money math errors.
 - **Tech Trade-offs:** Chose PWA and Serverless (Vercel + Google Cloud Run) for fast launch, low cost, and no App Store wait time.
 - **Quality Tests:** Guided AI to write over 200 tests (92% hit rate) and added auto-checks to ensure money math is always right.

— EDUCATION

- **Dept. of Mechanical and Computer-Aided Engineering, Feng Chia University** | Feng Chia University (2010/09 - 2012/02)
 - **Experience:** Founder of Board Game Club
